UNIQUENESS

UNIQUENESS

- Amazing Business model
- Zooming Functionality in VR
- Command on Comment feature
- Cost Effective Deployment

BENEFITS

- Customer/ Viewer gets a **personalisation experience** of the camera view.
- Highly **profitable** for the broadcasters.
- Minimum data transfer.
- Minimum lag.
- Least investment.

Applications:

Construction Sites

Security Surveillance

Offices (dome cameras)

Entertainment Purposes (Tourism)

LIMITATIONS

- Can’t See Upside- Down For Now.
- Highly dependent on Wi-Fi speed.

FUTURE ASPECTS

- The system of OCYV in hockey matches, football etc.
- For security in shops & malls
- Various research aspects

Thank you
